Informal Interpretation Report
Number 6629

Date November 24, 2026

Edition 2007

Section 707 (7)

Question:

Is the intent of 707 (7) to permit in an elevated train station an outboard elevator shaft that connects no more than two stories to have glass material on one face of the enclosure, when the second story is at an elevation of 50 feet above grade. The construction meets all the other requirement of 707 (7.1 through 7.7).

Notice:
The Building Officials Association of Florida, in cooperation with the Florida Building Commission, the Florida Department of Business & Professional Regulation, ICC, and industry and professional experts offer this interpretation of the Florida Building Code in the interest of consistency in their application statewide. This interpretation is informal, non-binding and subject to acceptance and approval by the local building official.
