Number 6652**

Date March 22, 2011

Edition 2007

Section Repairs

Question:

Can a state certified building contractor replace roof panels on an existing engineered building?

Answer

This is NOT a code question, this is a contractor licensing question and should be addressed to the appropriate local or state licensing board.

Commentary:

None.

Notice:

The Building Officials Association of Florida, in cooperation with the Florida Building Commission, the Florida Department of Business & Professional Regulation, ICC, and industry and professional experts offer this interpretation of the Florida Building Code in the interest of consistency in their application statewide. This interpretation is informal, non-binding and subject to acceptance and approval by the local building official.
