

**Informal Interpretation Report
Number 6721**

Date June 11, 2014

Edition 2007

Section 1609.1.1

Question:

Is it the intent of the FBC to define the 'a' edge zone described in the asce 7 document, chapter 6, which is a part of the FBC as referenced, as starting at the vertical wall line and continuing up the roof the calculated width of the 'a' zone, regardless of the width or length of an overhang extending away from the same wall line?

Answer

This request has expired and needs to be resubmitted for action.

Commentary:

None

Notice:

The Building Officials Association of Florida, in cooperation with the Florida Building Commission, the Florida Department of Business & Professional Regulation, ICC, and industry and professional experts offer this interpretation of the Florida Building Code in the interest of consistency in their application statewide. This interpretation is informal, non-binding and subject to acceptance and approval by the local building official.
