Informal Interpretation Report
Number 7051

Date November 24, 2026

Edition 2010

Section

Question:

The Florida Fire Prevention code is requiring that homes that do not meet a flow test of 1000gpm be protected by a fire suppression system. If a municipality or County did not adopt the Fire Prevention Code are they still required to comply with the Fire Districts that have adopted the code.

Notice:
The Building Officials Association of Florida, in cooperation with the Florida Building Commission, the Florida Department of Business & Professional Regulation, ICC, and industry and professional experts offer this interpretation of the Florida Building Code in the interest of consistency in their application statewide. This interpretation is informal, non-binding and subject to acceptance and approval by the local building official.
