

**Informal Interpretation Report
Number 7782**

Date June 03, 2016

Edition 2010

Section 404.1

Question:

Is it the intent of this code section to require CO (carbon monoxide)sensors and fans, to operate on a secondary power source, such as a generator?

Answer

No

Commentary:

At this time the way the code is written there is not requirement for secondary power for the CO detectors or for the fans.

Notice:

The Building Officials Association of Florida, in cooperation with the Florida Building Commission, the Florida Department of Business & Professional Regulation, ICC, and industry and professional experts offer this interpretation of the Florida Building Code in the interest of consistency in their application statewide. This interpretation is informal, non-binding and subject to acceptance and approval by the local building official.
