

**Informal Interpretation Report
Number 7945**

Date September 22, 2026

Edition 2004

Section 2603.4

Question:

Question 1: When all of the requirements in Paragraph 2603.4 are applied, is it permitted to use Foam-Plastic insulation such as EIFS inside of an interior wall of a fully sprinklered building of any type of construction?

Question 2: Are the requirements in section 2603.4 to be applied only to foam-plastic material located on the outside of a building such as EIFS or can they to be applied to other interior insulated walls containing EIFS?

Notice:

The Building Officials Association of Florida, in cooperation with the Florida Building Commission, the Florida Department of Business & Professional Regulation, ICC, and industry and professional experts offer this interpretation of the Florida Building Code in the interest of consistency in their application statewide. This interpretation is informal, non-binding and subject to acceptance and approval by the local building official.
