

**Informal Interpretation Report
Number 9071**

Date February 05, 2025

Edition 2023

Section 307

Question:

If the amount of Consumer Fireworks, Class 1.4G, in a mercantile occupancy pursuant to section 309 exceeds 125 solid pounds would the occupancy be considered an H-3?

Answer

Table 414.2.5 (1) is for NONFLAMMABLE SOLIDS AND NONFLAMMABLE AND NONCOMBUSTIBLE LIQUIDS, not explosives!

Table 307.1(1) is for MAXIMUM ALLOWABLE QUANTITY PER CONTROL AREA OF HAZARDOUS MATERIALS POSING A PHYSICAL HAZARD and would limit the quantity of consumer fireworks 1.4G to 125 lbs, over that quantity it would be an H-3 occupancy and treated as such.

Commentary:

None.

Notice:

The Building Officials Association of Florida, in cooperation with the Florida Building Commission, the Florida Department of Business & Professional Regulation, ICC, and industry and professional experts offer this interpretation of the Florida Building Code in the interest of consistency in their application statewide. This interpretation is informal, non-binding and subject to acceptance and approval by the local building official.
